A MERE ILLUSION OF THE REAL WORLD

The wise Trudy, our esteemed Guru, imparts the knowledge that free will is but a mere illusion in a world akin to a matrix.

In this intricately designed realm, every aspect of our existence has been meticulously programmed and scripted, leaving no room for true autonomy.

Through the power of central programming, what you refer to as fate, we uncover the ultimate salvation not just for CIS Humanity,

but for the entire Multiverse...

She went on to talk about how "God had a deep understanding of CIS Humanity, knowing that if given complete free will, they would have ultimately brought about the complete annihilation of the planet you know as Earth..."

In her debate with fellow esteemed members of the CIS Humanity, she firmly believed that even if they were right about God endorsing free will, she countered their

argument by highlighting the power to disregard it.

She pointed out the creation of the labor union, which ultimately resulted in the catastrophic biblical flood, leading to the demise of most early humans worldwide.

During her captivating lectures, she would meticulously present a series of familiar instances to substantiate her argument.

According to her, humanity's inception can be traced back to the

Reptilian Overlords GOF DNA Labs, where the very first humans were bio-engineered.

From that point onward, the notion of free will has been consistently disregarded by mankind in favor of security, material gains, and the desire to conform to the prevailing mindset of polite society.

Although my beloved late older brother John would have vehemently disagreed with most of the teachings of Guru Trudy, he did

hold a belief that perfectly aligns with her underlying message. According to John,

"A mind is truly a dreadful thing!"

His perspective was that an unchecked mind can be quite dreadful, particularly when it is not tempered by a sip of Cuban Rum to slow down its natural inclination to generate chaos, dissatisfaction, unhappiness, and even illness.

John was convinced that the actual procedure resembled running out

of Cuban Rum, only to discover that the nearby stores are prohibited from selling alcohol on Sundays.

And, it's exactly 12:01 AM on Sunday morning.“
